MESSAGE

Managing Director

Today we are living in the 21st century, leading a very fast paced life. The outlook towards food is now completely changed. We have learnt from our grandmothers that they used to grind whole spices everyday before cooking food. Packaged ground masala was then a dream. Times changed, aspirations changed and there has been a major shift from whole to grounded and blended spices. Heeral Wah India Spices entered this segment the last decade. We wanted to make a difference in spice industry and offer a solution to consumers. Solution which was committed to purity and authentic taste; hence we came up with Complete Masala. As the word goes, it is complete to the extent that it even includes onion, garlic, salt, and chillies. It was made to fit everybody's requirement and break the taboo that cooking is only a female affair. It gives me immense pride to admit that my dedicated team of chef did wonders to the spices and it is so well received among the males and females equally. My team and I realize the importance of 'Customer's Satisfaction First' therefore we are dedicated, prepared, flexible to changes and never lose sight of the long-term goals. We have focused ourselves on offering the best taste with supreme quality to customers hence striving harder every day by setting higher goals.

Should there be any area which you feel should be brought to our attention you can mail me directly at md@heeralwahindiaspices.com.

Best Wishes
Ravi Shanker Jaiswal
